

## Managua, Nicaragua Feb 6 – 20, 2010 “Delivering Health and Hope to the World”

### ABOUT NICARAGUA

The culture of Nicaragua varies in different regions based on historical influences. The majority of the population is located on the Pacific side where there is a strong Spanish influence. Nearly 6 million people live in the country. Due to a lack of resources and shortage of trained medical staff, the country is in need of medical assistance and education that can be provided by the C.U.R.E. CLINICS team. Internal conflict and hurricanes have also contributed to crippling of the economy and infrastructure.

More than half the Nicaraguan population lives below the poverty line, without limited access to basic healthcare. Hundreds of children die each year before reaching their fifth birthday. Most of these deaths are preventable.

### ABOUT THE HOSPITAL SITE

The medical staff at Lenin Fonseca Hospital invites physicians and surgeons to work at this hospital providing free care to underserved patients. Lenin Fonseca provides in-patient care dealing with illnesses or conditions requiring specialized techniques. It serves as the tertiary center for surgical patients from all of Nicaragua.

### WE NEED YOU!

Experienced physicians, surgeons, and nurses are needed. After your hard work at the clinic, you'll enjoy the smiles and the gratitude from the many patients you have helped. The people of Nicaragua need your help! There is great need in the region and the C.U.R.E. CLINICS team can provide needed medical attention.

The program cost for this trip is \$2,000 including airfare, accommodations, in-country transportation and meals. The work at the clinic can be followed by a short leisure trip to Nicaragua's beautiful Pacific beaches, touring Lago de Nicaragua, Granada, or Maribios Volcanic Chain.

To participate in this rewarding and wonderful opportunity please send your application and deposit to:
