- Sterilizer, Gas
- Suction Machine (All Types)
- Surgical Instruments (All Types)
- Table Parts/Armbords, StIRRups and Holders
- Ultrasound

Please do not place used or contaminated items in the bin.

FREQUENTLY ASKED QUESTIONS:

Q: Do you have an exhaustive list of all acceptable supplies and equipment?
A: No. It’s important not to overthink what you place in the bin as all donated items will be carefully assessed, tested and sorted by Project C.U.R.E. upon receipt.

Q: Do you accept expired items?
A: Yes, expired gloves, tubing and syringes are acceptable, if in original packaging and not compromised. Ingestible items—medicines, IV bags, and nutritional supplements—must have 1 year left before expiring.

Q: Do you accept items from Isolation Areas?
A: Yes, these items should be placed in a separate bag before depositing in our collection bin.

Q: Do you accept biomedical supplies and equipment?
A: Yes! Our mission is to equip hospitals and clinics in developing nations with everything they need to provide care and save lives. Please contact us when these items become available.
